

## BEng Software Engineering (Top-Up)

This Software Engineering programme is designed with the assistance of industrial partners to ensure the program to be relevant with industrial topics. Coursework throughout the programme utilises realistic scenarios intended to prepare learners for their career after university. Much of the coursework undertaken will be project based and often involves group working since the ability to work successfully and productively in teams is an essential element of modern software engineering.

### Documents required for enrollment: all in English:

- A copy of the passport or government ID
- A copy of profile picture
- A copy of the last academic certificate
- Transcripts for the latest academic certificate
- Proof of English language
- CV

### Entry Requirements:

- For direct entry you will need either a FdSc or HND in a software engineering or Computing/programming related courses such as OTHM L4 and L5 Diploma in Information Technology
- Learners with non-traditional qualifications and/or relevant experience may be accepted onto the course after a successful interview. You may be required to attend an interview and/or provide a portfolio of work

Modules	Study Mode	Duration
<ul style="list-style-type: none"> <li>• Undergraduate Project (60 credits)</li> <li>• Agile Programming (30 credits)</li> <li>• Enterprise Systems Development (30 credits)</li> </ul>	Online	1 Year
